

EDUCATION

Certification , Masai School (Full Stack Web Development)	Jul 2022 - Apr 2023
Certification , BRN Infotech (iOS Application Development)	Aug 2018 - Mar 2019
BE(Computer Science) , SSGBCOET, Bhusawal	Jun 2013 - Jul 2018

Skills

Technical Skills	React, JavaScript, CSS3, HTML5, Next Js, Responsive Web Design, Redux, Git, Node.js, Express.js, MongoDB, RESTful APIs, MySQL , python
Soft Skills	Time Management, Teamwork, Problem Solving, Effective Communication, Attention to Detail, Adaptability

Experience

Invact Metaversity , Software Developer	Jul 2024 - May 2025
- Developed scalable backend and frontend applications using Node.js, Python, and Next.js - Designed backend theory content and authored technical assessment questions on JavaScript, Node.js, and Python - Managed databases leveraging SQL and MongoDB for efficient data storage and retrieval - Utilized Notion for project documentation and streamlined project management processes	
Masai School , Software Developer Intern	Sep 2023 - Mar 2024
- Developed interactive web interfaces for Masai Dashboard and College Network using ReactJS and React Query - Enhanced website responsiveness and performance through modern CSS and dynamic JavaScript features - Implemented scalable UI components with reusable HTML, CSS, and ReactJS structures - Optimized data fetching and state management using React Query for seamless user experience	
Inceptive Technologies , iOS Developer	Jul 2019 - Jan 2020
- Developed Honeywell tablet web application using Swift, HTML, CSS, and JavaScript - Implemented static RAM statistics display for real-time performance monitoring - Collaborated with clients and cross-functional teams to deliver efficient solutions - Optimized application performance and user interface for seamless tablet experience	

Projects

Virtual Shop
Virtual Shop is a collaborative e-commerce web application that allows users to browse products, search, manage a shopping cart, and complete payments. It replicates a real-world online store with user-friendly functionality. 🔗 Deployed Link : https://minishop-nine.vercel.app/ 📁 Github Repo : https://github.com/kiranwankhade/Virtual-Shop - Contributed to building an e-commerce web application with features such as user login, product search, and detailed product views using React and Redux. - Implemented shopping cart and wishlist functionalities, including quantity control and coupon support, to enhance user experience. - Assisted in developing the checkout process, integrating payment options, and enabling order placement for seamless transactions. - Supported the creation of an admin panel for managing users and orders, improving overall application management. - Utilized JavaScript, CSS, SCSS (SASS), ChakraUI, and Glitch to design responsive and visually appealing user interfaces.
Masai Dashboard
Masai School Dashboard is an interactive web portal designed for students to register for events, take the MSAT exam, complete onboarding, and access courses and other learning resources. It streamlines the user journey from sign-up to admission. 🔗 Deployed Link : https://mock-onward-fe-rho.vercel.app/login 📁 Github Repo : https://github.com/kiranwankhade/mock-onward-fe - Developed an interactive web portal enabling student registration, event sign-up, and access to learning resources using React.JS and Chakra UI. - Implemented OTP-based authentication and streamlined event registration to enhance security and user experience. - Built the MSAT exam module with instant result generation and downloadable admit cards using Node.js and MongoDB. - Created a multi-step onboarding workflow and integrated a referral reward system for seamless user admission. - Utilized Redux, React-Router-Dom, Axios, React-Query, and other libraries to manage state, routing, API integration, and file uploads efficiently.
